Subject: Wichita CMS Activities
Date: Monday, December 08, 2014 1:08:26 PM

Hi Chris,

I am in the process of putting together the scope of work for Wichita next year and am reviewing the permit to identify all of the requirements.

There are numerous components to the CMS process identified in the permit, and I know you and I have discussed the possibility of applying a streamlined CMS process to the site in light of the IRM work this year. Requirements III.I to III.M-3 pertain to the CMS process and I'd like to discuss with you what the streamlined process may look like so I can appropriately plan for these activities next year.

Do you have any materials from the various meetings that you could share with me or perhaps we could have a call to discuss what the scope of work would need to include? I'm available all week for a call, but would like to have this ironed out to the extent possible by Wednesday or so. Please let me know if you have some free time to discuss this issue.

Thanks,

Mike Stephenson
